

**A BRIEF ABOUT
MID-WESTERN REGION
ANTICORRUPTION
COALITION**

Overview

Mid-western Region Anti-Corruption Coalition (MIRAC) is a coalition formed to address corruption in Uganda's mid-western region, with the aim of promoting transparency, accountability, and improved service delivery in public offices. Through advocacy, anti-corruption campaigns, and empowering communities with knowledge of their rights, MIRAC contributes to enhancing social justice and deepening democracy.

MIRAC's network spans 28 active member organizations across the districts of Hoima, Masindi, Kagadi, Kakumiro, Kibaale, Buliisa, Kiryandongo, and Kikuube.

Vision

To realize a corruption-free, equitably developed society.

01

Mission

To create platforms that amplify voices of the community and like-minded agencies to fight against corruption, ensure transparency and accountability among all service providers

02

Objectives

To combat corruption and misuse of public resources

To promote democracy and the rule of law

To influence public policies that have a direct bearing in people's lives through peaceful and lawful means

To promote justice and Human Rights observation

To document, disseminate, share, and undertake research on public resource management and policy development to ensure quality service delivery.

To build a strong coalition of members who can contribute effectively to the development process and enhance people's potential to hold their leaders accountable.

Program Areas

01

Democratic and good Governance. We support good governance tenets through enhancing respect for the principles of Transparency, Accountability and Participation.

02

Oil and Gas resources governance. We are supporting initiatives of transparency, accountability and participation in the extractives sector.

03

Forestry Governance. MIRAC is working on conserving central and local forest reserves through reporting illegalities in the forestry sector. MIRAC is building capacity of local businesses to benefit from oil and gas developments.

04

We are building awareness of local communities on different issues such as oil and gas, contracts, local government processes in delivery of services, land compensation and related issues.

05

MIRAC has built capacity of local community based organizations and NGOs in the areas of transparency, accountability and participation.

06

We are using local persons to monitor and report on services delivery at sub-county levels.

07

We facilitate dialogue and interface between local communities (Rights holders) and local leaders, big companies like TEPU, CNOOC on service delivery, local content (business and employment opportunities) and land compensation issues.
